

CAPABILITIES STATEMENT

WHAT WE DO

G Systems designs and builds custom test systems for aerospace and defense. We develop test systems for the full product life cycle from evaluation to production to field support.

KEY COMPETENCIES

Test and Measurement

Data Acquisition

Control Systems

RF Test

Vision Inspection

Software Development

WHY G SYSTEMS?

- **Turnkey provider:** Software, electrical, and mechanical Design/Build and Build-to-Print
- **Stability:** Nearly 30 years delivering hundreds of successful aerospace and defense projects
- **Continuity:** Permanent, tenured employees with an average of 20 years experience
- **Aero/Defense focus:** ITAR-compliant, Woman-Owned Small Business (WOSB)

OUR CLIENTS INCLUDE

PAST PERFORMANCE

- U.S. Navy – Combined Missile Test Sets, Contract N63394-15-C0010, 2015-2019, \$2,735,000
- U.S. Navy – Vertical Launching System Automated Test Equipment, Contract N63394-15-C-0011, 2015-2017, \$6,726,254
- Lockheed Martin – F-35 Systems Integration Facility test system, 2003-2018
- U.S. Navy – Vertical Launching System – MAVE and PAVE ATE N63394-16-R-0004, 2016-2018, \$2,718,205
- U.S. Navy – Single Module Junction Box N63394-18-C-0002, 2018, \$1,568,413

COMPANY INFORMATION

DUNS/CAGE: 088178751 / 3HPP5

Established: 1990

Classification: Woman-Owned Small Business (WOSB), **JCP Number:** 001175

Partners: National Instruments; Keysight Technologies
